WHAT'S WITH THIS?
I'M FINALLY HOME BUT...
I REALLY DON'T WANNA GO INSIDE!!

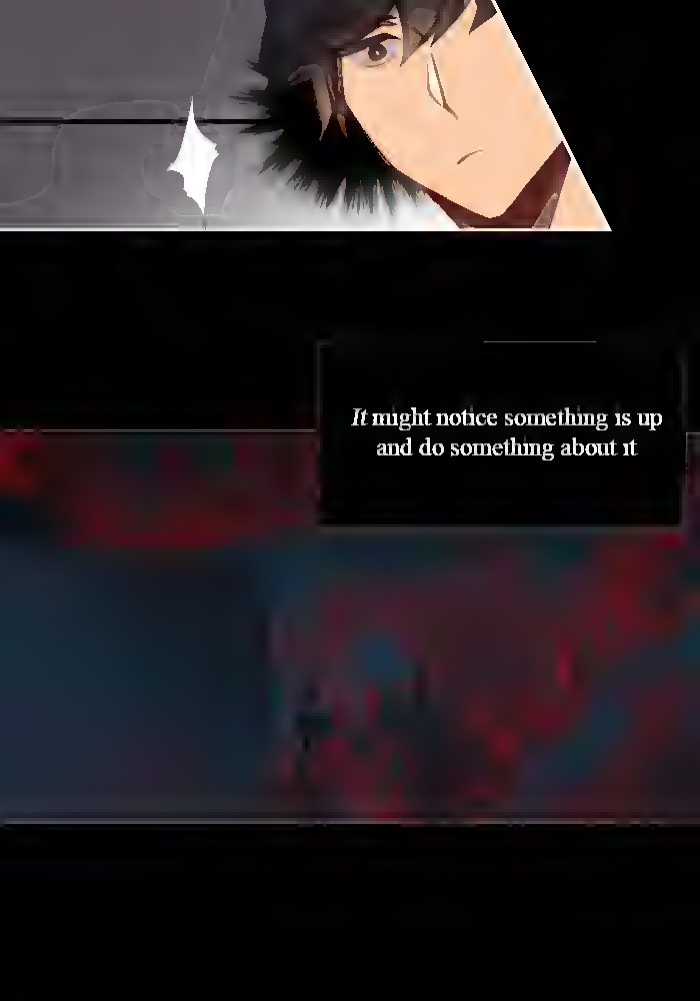
Get inside already

You're acting too suspiciously the longer you stand out here



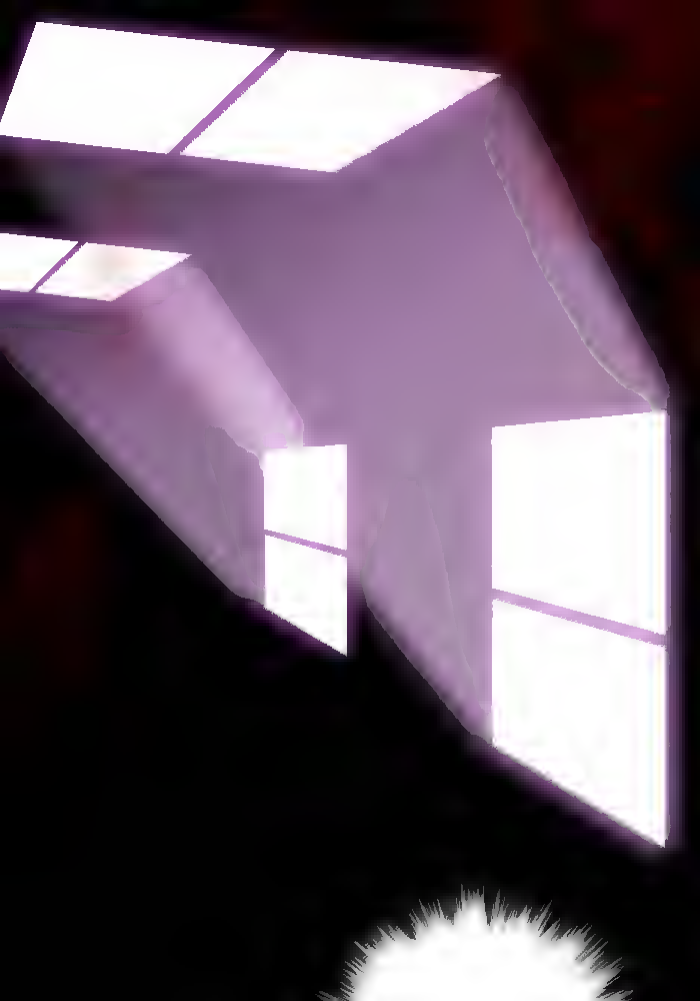
It might notice something is up
and do something about it

Just walk inside, and go to your room like normal.

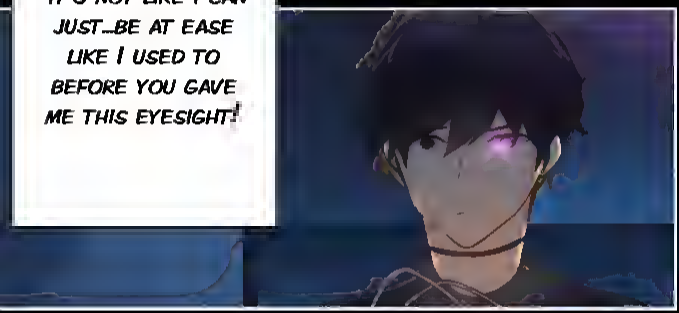
Don't do anything alarming
Calm yourself

WAIT..

SO HOW LONG HAS IT BEEN LIKE THIS? HAS IT REALLY BEEN SINCE THAT TIME?



IT'S NOT LIKE I CAN JUST...BE AT EASE LIKE I USED TO BEFORE YOU GAVE ME THIS EYESIGHT!



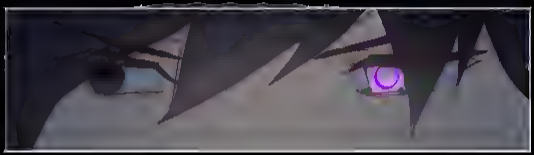
I SEE SCARY THINGS!
(AND I'M OFF DUTY RIGHT NOW)

Fine.

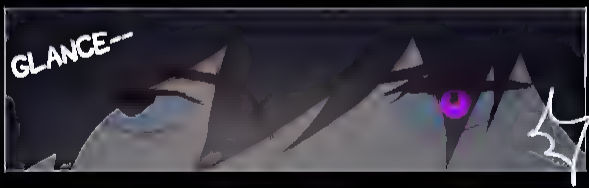
Decide to stay somewhere else for the night then.

(I would prefer that you do.)

I HONESTLY WOULD PREFER THAT TOO.



BUT...



I CAN'T JUST LEAVE MY MOM HERE WHEN THERE'S SOMETHING DANGEROUS AROUND!

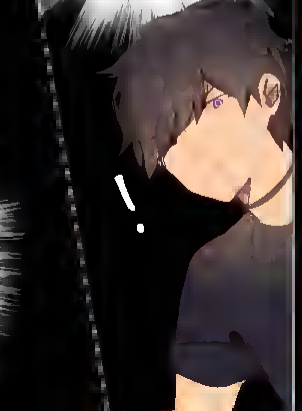
(Plus... what would she say if I wasn't home in the morning? I would get in so much trouble!)

In that case, you would be the only one able to protect her
TUP
TUP
You have a responsibility to her safety to stay

Although, I suppose the most you can do is take her and run if It takes action

OH!--

WHAT IF I TELL HER TO GET OUT OF THE HOUSE RIGHT NOW?



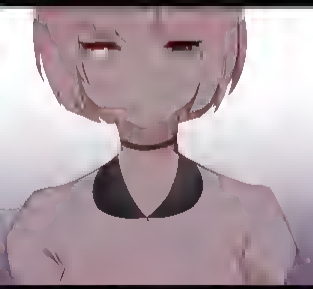
I MEAN SHE WILL PROBABLY YELL AT ME BECAUSE IT'S ALMOST 4 IN THE MORNING BUT--

Bad idea.

Were you not listening to what I was saying earlier?

You are constantly being monitored.

It is in your house. *It* sees what you do, even in the dark. *It* hears you, even when you whisper.



By alerting your mom...

You'll end up provoking your "stalker".

And that, right now, must be avoided at all cost.

UGH...
IS IT JUST BECAUSE OF THIS VISION THAT THE AIR FEELS SO MUCH THICKER HERE?

I CAN BARELY SEE MY DOOR WITH THIS MESS IN THE WAY.

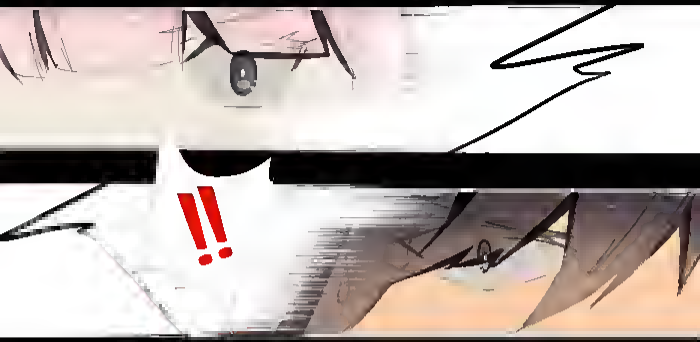
Steel yourself

(EASIER SAID THAN DONE...)

CHK--



WHAT?

IT'S—
UNNATURALLY NORMAL?--
